

Download Mac Laptop Manual Eject

How to Eject a CD From Your Mac - Ejecting a Stuck Disk Close any open apps. Tilt your Mac while ejecting the disk. Restart your Mac while holding down the mouse button. Use Disk Utility to open the CD tray. Use a Terminal command. Retry the above methods after giving your computer a break. ...The Mac, unlike most Windows PCs, doesn't have an external eject button on its CD/DVD drive. Instead, Apple made use of the ability of optical drives to respond to an open or close command sent over the drives electrical interface. By using the open and close commands the Mac offers several options for ejecting a CD or DVD. Optical drives typically include a small pinhole large enough to insert a paper clip end to manually eject a stubborn disc. Since the Mac Mini doesn't include this feature, you must use other ...Manual Eject Stuck CD/DVD from a Mac (MacBook) In general a CD or DVD can be ejected on a Mac (MacBook) using the physical eject button or from the finder without any problems, but occasionally this don't work and the disc icon might disappear from your Desktop and you can't get the disc out of your computer. However, there is a trick you can try to extract the stuck disc. Restart your Mac.
