

Download Medicare Billing Modifiers Dme

DME MAC Jurisdiction C Modifier QF-- PRESCRIBED AMOUNT OF OXYGEN EXCEEDS 4 LPM AND PORTABLE OXYGEN IS PRESCRIBED. These modifiers may only be used with stationary gaseous (E0424) or liquid (E0439) systems or with an oxygen concentrator (E1390, E1391). DME KG, KK, KU, KY AND KV modifiers, DME MAC Jurisdiction C Modifier KG -- DMEPOS ITEM SUBJECT TO DMEPOS COMPETITIVE BIDDING PROGRAM NUMBER 1 (EFFECTIVE DATE 07/01/2007) Medicare ABN Specific Modifiers – GA, GX, GY, GZ. We get a lot of questions at our medical billing company about which modifiers to use when submitting charges to Medicare. Specifically, we are often asked how to indicate whether or not an ABN (Advanced Beneficiary Notice) was given to the patient. These are the top 4 Medicare modifiers we use. Same or similar denials occur when the patient's CMN history indicates a piece of equipment is the same or similar to the equipment being billed. Search for a DMEPOS Item or HCPCS.
